SERVICE CHARGES*

Annual fee..... \$25.00
Hourly rate..... 7.75
File Space: per part per day..... .17

There is no monthly minimum fee. You pay only for the services you use.

MONTHLY CHARGES

Your monthly charges are calculated according to two factors: time on the Homelink service and file space used.

Time. The PLATO Homelink service records the time you use, in one-minute increments, and displays the time of your current session on the PLATO menu for your information and records.

File Space. You are not charged for file space unless you request it. The options requiring file space are storage of:

- Text processing documents
- Graphics design documents
- Lessons, games or utilities that you author
- Other files you create from the File Management option.

File space charges are based on the number of file parts used. On PLATO systems, a one-part file is equal to approximately 19,200 bytes of storage.

TELEPHONE CHARGES

Though your connection to the PLATO service is part of a complex, nationwide network, you are responsible only for charges from your telephone to the number you select from the list enclosed in your instruction package. In most cases, this is a local call.
